MARKET REVIEW

On June 4 the Department declared and reallocated to Western Hemisphere countries deficits of 400,000 tons in the sugar quota for Puerto Rico and 15,000 tons in the Virgin Islands quota. Details of the action are set forth on pages 6, 7 and 8.

Sales of sugar this year continue at a high rate. Distribution reported by primary distributors through June 8 amounted to 4,272,000 tons, raw value, compared with 4,063,000 tons during the same period last year and 4,049,000 tons during the comparable period of 1966. Cane sugar refiners marketed 3,145,000 tons during this period of 1968 or about 200,000 tons more than during this period of 1967 and 333,000 tons more than in the same period of 1966.

Marketings of beet sugar processors in 1968 continue to exceed 1967 - 1,037,000 tons compared with 1,021,000 tons - but were less than the 1,145,000 tons marketed through June 8, 1966.

Distribution of refined sugar in the United States, by states, during January-April was up five percent, as compared with the same period of 1967. Increases occurred in all of the five geographical regions. The North-central region had the largest - up 6.8 percent compared with 6.5 percent in the West, 4.2 percent in the South, 3.6 percent in New England and 2.8 percent in the Middle-Atlantic region.

Illinois showed the largest increase of any state - up 696,000 hundredweight. California was second with 366,000 hundredweight and Pennsylvania was third with 209,000 hundredweight. Texas, Wisconsin, New Jersey and Missouri had increases of between 100,000 and 200,000 hundredweight.

There were eleven states in which deliveries of refined sugar were less during the first four months of 1968 than during the same period of 1967. In nine of these states the decreases amounted to 8,000 hundredweight or less while Florida had the largest decrease - down 114,000 hundredweight and Iowa the next largest with a decrease of 23,000 hundredweight.

Deliveries of refined sugar to processors of food and other products during the first quarter of 1968 were up 6.2 percent compared with the first quarter of 1967 while deliveries of sugar for consumption in homes and institutions increased 3.0 percent. The five major food processing groups received more sugar during the first quarter in 1968 than in 1967 - canners up 10.6 percent, beverage manufacturers up 10.3 percent, bakers up 7.9 percent, confectioners up 3.2 percent, and manufacturers of ice cream and dairy products up 2.7 percent. The small category of other industrial processors received 5.5 percent less sugar than during the first quarter 1967.

Deliveries to wholesale grocers were up 5.1 percent and deliveries to retail grocers, chain stores and super-markets were up 2.5 percent.

Inventories of raw and refined cane sugar reported by refiners as of June 1, 1968 amounted to 936,000 tons, or 91,000 tons more than at the end of May 1967 and 13,000 tons more than at the end of April 1968. Beet processors' inventories reported as of June 1 were 1,102,000 tons or 122,000 tons less than at the end of May last year and 123,000 tons less than at the end of April 1968.

During the week ended May 17 there were a number of announced increases in the wholesale price quotations for refined sugar. On May 15 price increases of .15 cent per pound were announced by a refiner for sales of industrial and grocery sugar products sold in the Southeast region with the pre-advance prices applicable to shipments and/or deliveries through May 24. The grocery products price advance, however, was later rescinded. Also, on May 15, another refiner announced an advance of .10 cent per pound - from 10.80 to 10.90 cents per pound - in the price quotation for industrial sugar products sold in the Northeast region.

Although this latter advance was to have been effective immediately, it was stated in the announcement that pre-advance prices would apply to deliveries through May 31. Other refiners in an announcement dated May 16 established similar price advances for sugar sold in the Northeast but stated that the pre-advance prices would apply on shipments and/or deliveries through June 28 for orders submitted through May 24. As of June 19 the quoted prices for refined sugar sold in the basis pack, 100-pound paper bags, in the several regions were as follows:

	<u>Cane</u>	<u>Beet</u>
	<u>Cents per pound in 100-pound paper bags</u>	
Northeast	10.90	
Southeast	10.65	
Gulf	10.50	
Eastern beet		10.00
Chicago-West	10.00	10.00
Direct-shipment territory	9.90	9.90
Lower Pacific Coast	10.40	10.40
Northwest Intermountain	10.15	10.15

The U.S. average retail price for refined sugar sold in 5-pound paper bags during April was 12.18 cents per pound compared with 12.24 cents during April of last year and 12.14 cents during March 1968. For the period January-April 1968 the retail price averaged 12.15 cents per pound compared with 12.24 cents during this same period 1967.

During May, the price quotation for raw sugar duty paid and delivered to New York averaged 7.48 cents per pound compared with 7.25 cents in May of 1967 and 7.42 cents in April of 1968. From May 1 through May 3, the price was 7.45 cents, rose to 7.48 cents on May 6 and to 7.51 cents on May 15 where it remained through May 23. On May 24 the price dropped back to 7.45 cents per pound and did not change until June 7 when it rose to 7.48 cents and on June 11 to 7.55 cents. On June 18 the price was 7.55 cents per pound and for the period June 1 through June 18 averaged 7.50 cents compared with 7.33 cents during the comparable period last year.

Sugar production in Hawaii through June 1 amounted to 427,912 tons 96° basis compared with 442,145 tons produced through June 3 of last year.

Puerto Rican sugar production through June 2, 1968 amounted to 592,922 tons 96° basis, or about 180,000 tons less than for the comparable period last year. The yield of sugar per ton of cane has averaged 9.821 percent this year compared with 9.918 percent during the same period last year. Sugar production in Puerto Rico during 1968 continues to reflect the severe drought conditions in the area which have prevailed during the past two years.

The spot quotation for world market sugar as reported by the New York Coffee and Sugar Exchange averaged 1.98 cents per pound during May of

this year compared with 2.59 cents per pound during May of last year. In contrast, the average price for the period January through May of 1968 was 2.02 cents per pound compared with 1.87 cents for the same period last year.

On June 18 the New York Coffee and Sugar Exchange quoted the price of world sugar f.o.b. and stowed at Greater Caribbean ports, including Brazil, as 1.75 per pound and on the same day futures contracts for September 1968 delivery were quoted as 1.95/96 cents and for November 1969 delivery 2.76 cents per pound.

The United Nations Sugar Conference which began on April 17 in Geneva was recessed June 1 without reaching agreement. Exporting countries had been unable to agree upon quotas. Delegates of some of these countries stayed on for a few days to arrange for a meeting of the larger exporting countries on July 8 in Geneva. The purpose of that meeting will be to see if there is sufficient basis for resuming the conference in September.

ADMINISTRATIVE ACTIONS RELATING TO 1968 SUGAR SUPPLIESAllocation of Sugar Quota Deficits:

Secretary of Agriculture, Orville L. Freeman on June 4, 1968 declared a deficit of 400,000 short tons, raw value, in the sugar quota for Puerto Rico and 15,000 tons in that for the Virgin Islands. The Republic of the Philippines has informed the Department that this year it would be able to fill its own quota but would not be able to participate in servicing the deficits arising in other areas.

The President determined on May 28, 1968, under Section 204 of the Sugar Act that it would be in the national interest to give the Dominican Republic a special allocation of 75,000 short tons, raw value, of sugar which represents a portion of the unused Philippine share of the Puerto Rican and Virgin Island deficits, and its prorata share of the balance of these deficits and of any other deficits that might be declared in 1968.

The President's decision was taken in view of the unique and heavy burden of rehabilitation expenditure on the Government of the Dominican Republic this year and is in accordance with the recommendation of the Conference Report on the Sugar Act Amendments of 1965 that he use his authority to assign deficits to provide additional quota for the Dominican Republic if the political situation in that republic warrants such action.

After the assignment of 75,000 tons of the unused Philippine share of the deficits to the Dominican Republic, the balance of the deficits of 340,000 tons was prorated to the Dominican Republic and the other Western Hemisphere countries named in Section 202(c)(3)(a) of the Act on the basis of quotas in effect prior to the allocation of the deficits.

This action will enable countries to plan their exportations of sugar to the United States and also provide adequate time for any country which may not be able to supply the full quantity of its quota and deficit prorations to so notify the Secretary before August 1. The Sugar Act provides that quotas for future years shall be reduced if a country fails to supply the current year's quota unless the country notifies the

Secretary of such failure and the Secretary finds that the failure was due to crop disaster or other force majeure and the country had met certain other conditions.

The deficit determinations and prorations and revised quotas are shown in the table on page 8.

Production area	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d) ^{1/}	Deficits and deficit prorations	Total quotas and prorations
Short tons, raw value				
Domestic beet sugar	3,120,333			3,120,333

^{1/} Proration of the quota withheld from Cuba and Southern Rhodesia.

* Direct-consumption limits in tons: Hawaii-36,252; Puerto Rico - 159,000
 Republic of the Philippines - 59,920
 Panama - 3,817; and Ireland - 5,351

OTHER ADMINISTRATIVE ACTIONS

<u>Date announced</u>	<u>Nature of action</u>
June 3, 1968	Announced that an informal public hearing will be held June 28, 1968, in New Orleans, Louisiana to receive views and recommendations with respect to establishing farm proportionate shares (acreage allotments) for the 1969 sugarcane crop in Mainland Cane Sugar Area (Florida and Louisiana). The hearing will begin at 10 a.m. (CDT) in Room 300 Whitney Building, 228 St. Charles Avenue. (See June 6, 1968 Federal Register).
June 4, 1968	Announced public hearings on fair prices for the 1968 Florida and Louisiana sugarcane crops, and on whether the wage determinations applicable to fieldworkers -- which became effective on October 23, 1967 in Florida, and October 16, 1967 in Louisiana -- should be continued or amended.
	Places, dates, and local time of hearings are:
	At Belle Glade, Fla., on June 20, 1968, in the Holiday Inn, beginning at 9:30 a.m.;
	At Houma, La., on June 24, 1968, in the Municipal Auditorium, 880 Verret Street, beginning at 9:30 a.m.; (See June 7, 1968 Federal Register).

Date announcedNature of action

June 5,
1968

Announced the adoption of a revised regulation covering marketing requirements relating to sugar produced from sugar beets and sugarcane grown in the continental United States and sugar for consumption in Hawaii and Puerto Rico (S.R. 816). The revised regulation is the same as that set forth in a Notice of Proposed Rule Making announced April 10, 1968 (Press Release USDA 1144-68) and published on pages 5683-5687 of the Federal Register of April 12, 1968. (See June 8, 1968 Federal Register).

June 10,
1968

Announced revised processor allotments of the 1968 sugar quota for the Mainland Cane Sugar Area. These allotments totaling 1,134,667 short tons, raw value, replace the previously established allotments totaling 1,046,519 tons which have been in effect since May 2. (Press Release USDA 1418-68). (See June 15, 1968 Federal Register).

STATISTICAL SERIES IN THIS ISSUEHIGHLIGHTS

1. May 1968 sugar deliveries for continental U. S. consumption 951,000 short tons, raw value (preliminary), up about 130,000 tons from April 1968 and up 110,000 tons from May 1967. January-May 1968 deliveries 4,083,000 short tons, raw value, up 263,000 tons from January-May 1967. Final data for April 1968 deliveries 821,000 short tons, raw value - previously published preliminary as 840,000 tons.

2. Primary distributors' stocks June 1, 1968 were 2,363,000 short tons, raw value (preliminary), down 16,000 tons from a year ago, and down 160,000 tons from April 30, 1968. During May refiners' stocks increased 13,000 tons, beet processors' stocks decreased 123,000 tons, mainland cane processors' stocks decreased by 50,000 tons and importers of direct consumption sugar stocks remained about the same.

3. Charges to quotas January 1 to May 31, 1968 were 4,691,103 short tons, raw value, leaving a balance of 5,908,897 tons to be supplied within the 10,600,000 ton total.

4. Regionally, January-April deliveries, 1968 as compared to 1967 were up in all of the 5 regions: Increases-- North Central 6.8 percent, West 6.5 percent, South 4.2 percent, New England 3.6 percent and Middle Atlantic 2.8 percent.

5. First quarter 1968 sugar deliveries were larger to 5 of the seven industrial user groups than for the same 1967 quarter, and also larger to three of the four non-industrial user groups. To industrial buyers the national increase was 6.2 percent while non-industrial buyers increased 3.0 percent.

¹/ Spot prices are for bulk sugar under Contract No. 10 which, beginning November 21, 1966, replaces Contract No. 7. The terms of these contracts are duty paid or duty free, full duty rate .625 cent per pound.

²/ Spot prices are those under No. 8 Contract which is for bagged sugar f.o.b. and stowed at Greater Caribbean ports (including Brazil).

³/ The No. 10 "Domestic Bulk" Contract has been adjusted by deducting duty (.625¢), computed freight from the Greater Caribbean ports (including Brazil), insurance and unloading charges and adding the bag allowance (currently .055¢) before calculating the differential from No. 8 "World" Contract spot prices.

⁴/ These are basis prices in 100-pound paper bags, NOT delivered prices. To obtain delivered prices add "Freight Prepays" and deduct discounts and allowances. For illustration see Sugar Reports 81 January 1959, pages 5 to 9.

1/ Gross basis price in 100 pound bags subject to a 2 percent cash discount.

2/ Hydrate, commercial bags less than carlots, ex whse., N.Y. 100 lbs. Beginning April 1964 price is for 600 bag carload f.o.b. N.Y.

3/ In drums, price in carload lots, except from February 1962 to April 1964 for less than carload lots. Beginning April 1964, price is for tank cars f.o.b. New York, per cwt. Quoted as 42 percent unmixed, except beginning March 1956, quoted as 43 percent unmixed.

4/ Assumes price is for 92 percent solids for dextrose and 80.3 percent solids for corn sirup. Thus dry basis price is quoted price divided by 0.92 for dextrose and 0.803 for corn sirup.
